TEARS.

BY ALFRED TENNYSON.

Tears, idle tears, I know not what they mean;
Tears from the depth of some divine despair
Rise in the heart and gather to the eyes,
In looking on the happy autumn fields,
And thinking of the days that are no more.
Fresh as the first beam glittering on a sail
That brings our friends up from the outer world,
Sad as the last which reddens over one
That sinks with all we love below the verge
So sad, so fresh, the days that are no more.
Ah, sad and strange as in dark summer dawns
The earliest pipe of half-awakened birds
To dying ears, when unto dying eyes
The casement slowly grows a glimmering square,
So sad, so strange, the days that are no more.
Dear as remembered kisses after death,
And sweet as those that hopeless fancy feigned
On lips that are for ever; deep as love,
Deep as first love, and wild with all regret,
O Death in Life, the days that are no more.

THE PRIMARY ELECTION LAW.

This law, entitled "An Act to protect the election of voluntary political associations, and to punish frauds thereon," approved March 26, 1866, and commonly known as "Porter's Election Law," reads as follows:

"Section 1.—All elections hereafter to be held by any voluntary political association or party in this State, for any delegates or managing committee, or for the nomination of candidates for public office, may be called or ordered by published notice, which shall state the purpose, time, manner, conditions, together with the place or places of holding such elections; also the authority by which the call or notice is published, and the person shall be named therein who is to supervise or preside at each poll where such election is to be held; and the said person shall be a legal voter of the township, precinct, ward, or election district for which he is named. Said notice shall likewise declare the qualifications of the persons to vote at such elections; provided, that such prescribed qualifications shall not be inconsistent with those expressed in this Act.

Sec. 2.—The notice required by section one of this Act shall be published in some newspaper or newspapers printed in the district, ward, precinct, township, city or county, for which the election is called and shall be posted in at least three public places in the polling precincts of such election at least five days prior thereto; providing, if there be no newspaper published in the district or county, then the newspaper publication may be omitted.

Sec. 3.—The person named as Supervisor in the notice required by section one of this Act, or any other person, in his absence or refusal to serve, assuming or chosen to be such Supervisor of the election aforesaid shall first be sworn by some officer authorized to administer oaths, or by some resident freeholder and legally qualified voter of the precinct, ward, or district, in presence of at least two witnesses of like qualifications, that he is a legal voter of the precinct, ward, or district, in which such election is to be held, and he will correctly and faithfully conduct such election, protect it against all fraud and unfairness, carefully and truly canvass and report all votes cast thereat in such manner as may be required by the authority appointing the election, and he shall appoint such assistants as shall be reputable citizens legally qualified electors of the township, precinct, ward, or district, as the case may be. And any violations of the provisions of this section shall be deemed a misdemeanor, and shall, on conviction, subject the offender to punishment by fine, not less than fifty nor more than five hundred dollars, or by imprisonment in the county jail not more than six months, or by both such fine and imprisonment.

Sec. 4.—It shall be the duty of the Supervisor of such election to entertain objections made by any qualified elector under said published call or notice to any vote that may be offered, on the ground that the person offering it was not entitled to vote under the terms of the said call for the said election, precinct, ward, township, or district, or that he has voted before at that place or some other on that day in the same election; and it shall be the duty of such Supervisors, if such objection is not withdrawn, to administer to the person so offering to vote an oath or affirmation to the general effect that he will truly testify as to all matters relating to his said qualifications under said published call, his residence, citizenship of the United States, and whether he has voted at that or other place on that day at such election. It shall then be the duty of the Supervisor to interrogate the person so objected to as to all the matters in particular upon which such objection was made, and generally as to all of such qualifications. If the person so objected shall refuse to answer such questions after said oath shall have been administered, it shall

be the duty of the Supervisor to reject such vote. But if such oath be taken and such be answered satisfactorily, it shall be the duty of the Supervisor to admit the vote sworn to be qualified to the terms of the call and the provisions of this Act. And any violation of the provisions of this section by the Supervisor shall be deemed a misdemeanor, and shall, on conviction, subject him to punishment as prescribed in section three of this Act. And any person who shall, upon taking such oath and under the examination herein authorized, willfully make a false statement to a matter pertinent and material in such examination, shall be deemed guilty of the crime of perjury, and, on conviction, be punished as prescribed by law.

Sec. 5.—Any person who is not a citizen of the United States and qualified to vote in the county wherein the election is held at the next coming State, county or municipal election, who shall vote at an election held under the provisions of this Act after objections made as specified in section four, or any person who shall vote more than once at the same or different precincts or polls on the same day and in the same election, whether such objection be made or not, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished as provided in section three of this Act.

Sec. 6.—Any voluntary political association or party that shall elect to invoke the protection of this Act, shall at the time of the publication of notice provided for in section one, declare that such election therein called will be held in pursuance of and subject to the provisions of this Act, under the title of the Primary Election Law; and in the event such notice last aforesaid shall be published, and not otherwise, the provisions of this Act shall be applicable, and in force in respect to such election.

Sec. 7.—This Act shall take effect and be in force from and after its passage, and no expense shall be incurred to the county or State in the conduct of elections under its provisions.

"PORSON, OR THE DEVIL."—In the good old days of coach traveling, an inside was occupied by Porson, a young Oxonian, and two ladies. The young Oxonian, fresh from college, was amusing the ladies with a variety of talk, and amongst other things, with a quotation from Sophocles. A Greek quotation, and in a coach too, roused the slumbering Professor; and thereupon waking from a kind of dog sleep, in a snug corner of the vehicle—shaking his ears and rubbing his eyes, "I think, young gentleman," said he, "you favored us just now with a quotation from Sophocles; I do not happen to recollect it there." "Oh sir," replied the Oxonian, "the quotation is word for word as I have repeated it, and in Sophocles, too; but I suspect, sir, it is some time since you were at college." The Professor applying his hand to his greatcoat, and taking a small and neatly finished pocket edition of Sophocles, quietly asked him if he would be kind enough to show him the passage in question in that little book. After rummaging the pages for some time, he replied, "Upon second thoughts, I now recollect that the passage is in Euripides." "Then perhaps, sir," said the Professor, putting his hand again into his pocket, and handing him a similar edition of Euripides "you will be so good as to find it for me in that little book." The young Oxonian returned to his task, but with no better success, muttering, however, to himself, "Curse me, if I ever quote Greek again in a coach." The tittering of the ladies informed him that he had got into a hobble. At last, "Bless me, sir," said he, "how dull I am: I recollect now, yes, yes, I perfectly remember that the passage is in Aeschylus." Aeschylus was immediately produced, and then the astonished freshman vociferated, "Stop the coach—halloo, coachman, let me out, I say, instantly—let me out! there's a fellow got the Boddian library in his pocket; let me out, I say—let me out, he must be Porson, or the devil!"

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double tread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the American Institute of San Francisco, in 1865 and 1866, to any Sewing Machine Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

ARE YOU REGISTERED?

Many persons in our midst are under the impression that their names are already upon the Great Register from the fact they gave their names to the Assessor or his Deputy, last year. We learn that in many instances, owing probably to the fact that the requirements of the Registry Law were not properly understood by the Assessors that many persons gave in their names and are not yet upon the Great Register, and it is to correct this deficiency in part, but more especially to furnish an opportunity to all who are entitled to go upon the Register that our accommodation County Judge and Clerk will visit the several registering precincts at the times named in another column. By reference to the law it will be seen that citizens alone are registered in the Great Register and in order to have this done must apply directly to the Clerk. Where natural born citizens are personally known to the Clerk to be such they are registered on the personal knowledge of such officer, being required simply to make oath of the truth of the entry in the Register, but when not personally known to be such they are required to furnish proof of such fact; the officers making the entries are expected to exercise a reasonable discretion in such cases and frequently but slight proof will be required. When naturalized citizens apply they must produce proof to the County Judge when their certificate cannot be produced, they are required to prove, by two registered citizens, to the satisfaction of the County Clerk and Judge that he has resided five years in the United States, and one year in California preceding his application, and that during that time he has sustained a good moral character, and has been attached to the principles of the Constitution of the United States. No person is allowed to vote other than in his own precinct, and persons leaving the county are required to procure a certificate of their registration from the Clerk in order that they may be properly registered elsewhere. (The Act does not operate to the injury of any who are entitled to vote, but merely protects one of the most sacred rights of the citizen of a free country. Let all who have a right to be registered be prompt on the arrival of the proper officers at the different precincts so that unnecessary delay be avoided, as the time these officers are allowed will necessarily be short on account of the fact that persons may apply for registration during their absence at the county seat, and they are anxious, as far as possible, to accommodate every citizen in the county.

ACCOMMODATING OFFICER.—On a recent visit to Colfax we noticed a horse ridden by two men charging up the Main street of the town, and on inquiring the cause of such singular behavior on the part of the two men learned that one of the men was the active deputy Constable, C. Queen and the other a prisoner who had just been arrested for larceny. We wondered at the mode of conveyance adopted by the Constable, but concluded that he was only illustrating to the evil doer that punishment should follow swiftly upon the heels of the transgressor. After being arraigned and in selecting a jury to try his case, he made a very suggestive remark; one probably susceptible of more than one construction. In marking over the names he said, "I don't care about the jury, so that there are no d—d Copperheads on it." Now, whether he was afraid of the justice that would be meted to him by Democrats or not, we cannot say, but it struck us as being rather a poor compliment to their honesty when a rascal arrested for petit larceny was afraid to trust them.

STATE TEACHERS' INSTITUTE.—The State Teachers' Institute will be held at San Francisco on Tuesday, May 7th, and continue four days. The Institute will be held during the session of the City Schools, and the forenoons of each day will be devoted to visiting the Public Schools, observing the methods of teaching and government. The evenings to lectures and discussions. A meeting of the State Educational Society will be held during the time and an address delivered by Theodore Bradley, Principle of the Boys High School of San Francisco. Arrangements have been made with the California Steam Navigation Company by which Teachers will receive a free pass. The Institute will be held in the hall of the Lincoln School building, and those attending are assured that the Teachers of San Francisco will do every thing in their power to render the visit of strangers both pleasant and useful.

ROBBERY.—On Wednesday night last the store house of Messrs. Kruger & Hilton, at the railroad depot, was broken open and two cases of boots and a quantity of rice stolen therefrom. On Thursday afternoon Mr. Kruger saw two Chinamen in the brush whose actions excited his suspicions and upon approaching them they started to run. He immediately gave chase when the Chinamen took to water in the reservoir above that portion of the town occupied by the Chinese, where they were caught and delivered into the custody of Deputy Sheriff Greeley. A portion of the stolen property was recovered on the arrest of the thieves. On Thursday night Sheriff Greeley arrested two more of the thieves concerned in the same robbery.

The attention of the reader is called to the advertisement of Starr's Exchange in another column. Persons visiting Colfax will consult their comfort and health by giving Mr. Starr a call. His house is a new one and everything connected with it is kept in apple-pie order. When a town presents one feature of this kind it should be known to all, and Mr. Starr is one of the few engaged in catering for the public who thoroughly understands his business. He can and does keep a first class house.

TEACHERS' INSTITUTE.—The County Institute will meet at Auburn on Monday, May 20th, and continue in session four days. The County Board of Examination will also hold a session during the time, and persons wishing certificates are requested to present themselves for examination.

LETTER FROM COLFAX.

COLFAX, April 5th, 1867.

MR. EDITOR:—I visited the mines in the neighborhood of Cape Horn the other day, and I was agreeably surprised at their appearance. I had heard a good deal said about them, but as a general thing less than about other localities near here. I found a number at work, and everything indicated that the coming season would be taken advantage of to push things steadily forward. The Mountain View claim, owned by Messrs. McCullough & Co., is as promising a mine as any that I recollect of having seen in any place in the State. The vein is from 3 to 5 feet wide and shows out strongly for the entire length of their claim which is 1,000 feet. They have tested the rock and know well what it will pay; it is easily worked and they estimate that they have exposed, in their prospecting, a sufficient amount of ore to yield in the gross \$170,000. They are poor men, pay but little on their claim, but feel confident of its value and are disposed to hold closely on to it. On their south extension is the Long Star Co.; it is equally as good, and in one respect merits its name. There has been and is but one lone man working on it. He, single and unaided has sunk a shaft to the depth of 65 feet. This is a feat unequalled in my mining experience, and the person performing it is well worthy of success. I took out my pencil to estimate the number of trips up and down that he had made in the performance but got lost in the maze of figures and gave up the job as hopeless. The credit of this man will always be good at any "grub" store; and if the country was better supplied with a similar kind, its wealth and resources would be sooner developed, and its importance would be generally known. There is in the same neighborhood the Pacific, Galena and others, that prospect well, and upon which work will be done to a considerable extent this season. I have been frequently surprised at mined men and capitalists being attracted to distant and almost inaccessible sections of country to the neglect of near and convenient places at home. We see it every day demonstrated; raise the cry of rich mines in Arizona or Mexico and away goes the agent of the capitalist to invest hundreds of thousands to be, in many instances, entirely lost, while at home it is almost impossible to get a mined man to touch the best of mines. As an instance, we have but to look at Grass Valley; for years and years that place was permitted to drag along, its rich mines of quartz unnoticed, and if it had not been for the indomitable energy and will of a portion of its mining class its mines would have been to this day undeveloped. Capitalists could see immense riches at Reese River but none here. Grass Valley had no sympathy while struggling for very existence, now it needs it not, when it is admitted to be superior to any other region. In his easy chair sits the capitalist, and when his thoughts are turned on mining, he dreams of romantic cliffs, deep and impassable canyons and gorges, and a desolate and barren country, and couples them as an indispensable ingredient to rich mines. Such is not always nor in most instances the case. We have here at Colfax a climate unrivaled, as healthy and salubrious as any in the world, with soil capable of raising anything for the supply of man, and in addition to all this, I sincerely believe that we have mines equal to any yet developed in this or any other State. I say this deliberately and from more than ordinary experience for there are but few mining countries on this coast that I have not seen and prospected. Then I again say it is surprising that men of means should overlook a place like this and aid in building up localities with none of the natural advantages and of less real merit.

ALL FOOL'S DAY.

The first of April passed with the accustomed amusements of the boys. One of our landlords who had been quite facetious in giving his boarders salt for sugar and playing sundry other tricks was completely taken in to end the day's festival. On the arrival of the 8 o'clock P. M. train he was on hand, as usual, to escort the traveler to his pleasant hotel. As usual there was one in the caboose, an elderly man with a heavily loaded carpet sack. Of course he seized the carpet sack and with a "this way, sir; this way," escorted the traveler across the street. On reaching the bar-room, depositing the carpet sack and presenting his register he found himself face to face with one of our citizens who proved to be the passenger, and learned that he had packed about one hundred and fifty pounds of rocks from the depot.

POLITICAL.

There is something dark and mysterious going on in the political world; what it is I am unable to cipher out; but I think Mr. Richmond, of your town, had better "look well to his honors," for there is in my opinion an effort being made to wrest this section of the county from him in the convention. I am disposed to favor him for the position to which he aspires and would suggest that some active work on his part would probably be advantageous to his interests.

A number of our county and district officials have visited us in the last week, all, of course, on business, but you bet your life they have one or more eyes open to the chances for their renomination and never fail to lay a rope for their own interests. As yet we have presented but one candidate for position on the county ticket. That is Judge Jonathan Brown, well known in this section. How the old man's bottom will stand the test of the race remains to be seen; he has numerous friends here and would efficiently fill the position of Recorder. For Justice of the Peace we present N. R. D. Traphagan and for Constable our time honored candidate, J. Keck. He has run and walked over many a race course for this position before, and can safely do it again. Yours,

OCCASIONAL.

REGISTER.—The County Judge and County Clerk will be at Iowa Hill April 12th and 13th; Colfax 15th; Gold Run 16th and 17th; Dutch Flat 17th and 18th, and Cisco 19th and 20th for the purpose of placing the names of citizens on the Great Register.

TRAVELING ROUND.—We see that J. S. ("Pony") Jones is now engaged as the traveling correspondent of the house of L. Powers & Co., of Sacramento. Mr. Jones is well and favorably known to a large portion of the people of our country, and as the house for which he is engaged is in every respect reliable we see no reason why all parties should not be benefited. Those who are engaged in dealing in liquors should trade with Jones as the house is managed by reliable and responsible gentlemen, selling nothing but the best and they should be patronized; those in the habit of taking their toddies should only drink at places that get their liquors from houses that have a reputation for dealing in nothing but the pure article.

TWO PAPERS IN YUBA CITY.—The Appeal says we have printed prospectuses for two weekly papers to be issued at Yuba City. The Yuba City Sentinel, by D. M. Hanson & Co., is to be issued on the 13th or 20th of April, and the Sutter Banner, by Stewart & Maxwell, will appear on the 18th. Sutter county, which has never been honored with one newspaper, is now in a fair way to father two. As "opposition is the life of business," we suppose Sutter county will put on immense vigor the coming summer.

The Dutch Flat Dramatists will give a performance on Thursday evening next. We understand that an attractive bill will be presented on the occasion.

NOTHING MUCH.—A person receiving a bundle of papers at a Post Office window lately, asked: "What do they come to?" "O, not much; they only come to you!" was the sarcastic reply.

BY Virtue of an execution issued out of the District Court 14th Judicial district of the State of California, in and for the county of Placer, on a judgment rendered in said court on the 24th day of February A. D. 1867, in favor of the Dutch Flat Steam Mill Co., composed of J. Jones, L. H. Hilton and W. H. Kruger and against Thomas Cooper, A. L. Phillips and B. H. Joelsink for the sum of \$427 74-100 and costs of suit taxed at \$22.20-100, in interest on the sum of \$427 74-100 from the 27th day of February, 1867, at the rate of ten per cent. per annum, I have levied upon and will sell to the highest bidder for cash, in front of the Justice of the Peace, in the town of Dutch Flat in Placer county, on

SEMI-WEEKLY ENQUIRER.

The territory we have just purchased from Russia, for \$7,000,000, is thus noticed in the New American Cyclopaedia:

"Russian America, that portion of the American continent lying north of latitude 54 degrees 40 minutes north and west of longitude 111 degrees west, with the islands adjacent together with a narrow belt of rocky coast, latitude 54 degrees 40 minutes, and 60 degrees north; area, 571,875 square miles; population, 10,723, with a partly of Russian or Siberian descent, and 40,000 to 50,000 Indians. The islands are very numerous, and many of them uninhabited, the principal groups forming the Aleutian archipelago. The most important are Prince of Wales Island, Baranof or Sitka, Kodiak, Unimak, Nuniak, and St. Lawrence. The peninsula of Alaska extends westward to about longitude 150 degrees west. The surface along the coast is very mountainous, several of the peaks, some of them volcanic, attaining an altitude of 15,000 to 17,500 feet, and the coast range being generally 10,000 feet high. The interior is little known; there is a range of mountains, 200 to 250 miles back from the coast, a continuation of the Sierra Nevada, and a third range extending inward from Cape Lisburne, above Behring's straits. In the south part there are extensive sounds or frith, lying between the islands and the coast, and navigable for large vessels to a considerable distance in the interior. The rivers are the Kuskovim and the Kvikpak, flowing into the Kamtschatka sea; the Yukon, with several affluents, flows into Behring's strait; and the Colville, which flows into the Arctic ocean. The climate of the greater part of the country is intensely cold, and the soil sterile. In the south some of the narrow valleys are productive. The pine attains a great height on the low hills, and the fir and alder are abundant. Most of the vegetation is of the alpine character. The country is mainly uninhabited for the purpose of the fur trade. Its principal town, New Archangel (population about 1,500), is situated on Sitka Island, has a good harbor, and is the headquarters of the Russian American Fur Company, which employs 50 or 60 vessels in the collection and transportation of furs."

Of Sitka, the principal island upon the coast and that which furnishes California with ice, the same authority says: "Sitka, an island of Russian America, the largest of George III. Archipelago. Its climate is humid and cold, having only on an average 66 dry days in the year. The temperature for the year averages 45.3 degrees Fahrenheit, that of the summer 56.2 degrees. The soil is generally sterile, a little barley, rye, and oats are raised. Sitka, or New Archangel, on the west coast of the island, in latitude 57 degrees 30 minutes north, longitude 135 degrees 48 minutes west, is the only town of any size in Russian America, and the capital of the colony; population about 1,300. The harbor is a good one, and there is a large trade in fish and peltry with Petropavlovsk. The houses, except the Governor's residence, are more hotels. Ship building is carried on to some extent."

QUESTERIAN STATE.—Congress has appropriated \$20,000 for the erection of an Equestrian statue of Gen. Scott. The statue is to be of bronze cast from cannon captured from Mexico.

MEDICAL.

S. T.—1860.—X.

"YES" SO! "EXACTLY!"—Said Shingle said they were there "every time." If he felt "queasy" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or morbidly oppressed, he took Plantation Bitters, and they never failed to set him on his pins square and firm.

A FEW BOTTLES OF PLANTATION BITTERS

Will cure Nervous Headache,

Cold Extremities and Feverish Lips,

Sour Stomach and Fetid Breath,

Flatulency and Indigestion,

Nervous Affections,

Excessive Fatigue and Short Breath,

Pain over the Eyes,

Mental Despondency,

Prostration, Great Weakness,

Sallow Complexion, Weak Bowels, &c.,

which are evidences of

Liver Complaint and Dyspepsia.

After a long research, we are able to present the most pleasant, the most remarkable cure for those horrid nightmarish diseases the liver has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of the system.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Rascals imitate to come as near our name and styles as they can, and because a poor article cannot be sold as low as a good one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

BARNES' MAGNOLIA WATER.

A toilet delight! The Ladies' delight and Gentlemen's boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of perspiration. It removes redness, tan, blotches, &c.

It cures nervous headache and allays inflammation. It cools, softens and adds delicacy to the skin. It yields a softness and lasting perfume.

It cures mosquito bites and stings of insects. It contains no materials injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or toilet water afterwards. Sold by Druggists and Dealers everywhere. DEMAS BARNES & CO., Props. Exclusive agents, N. Y.

LYON'S KATHAIRON.

It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clean. It makes the hair rich, soft and glossy. It prevents the hair turning gray and falling off. It restores the hair upon prematurely bald heads. This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it. E. THOMAS LYON, Chemist, N. Y.

LYON'S EXTRACT GINGER.

LYON'S EXTRACT OF PURE JAMAICA GINGER.—For Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere at five cents a bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. stamp of Demas Barnes & Co., is over the cork of each package.—None other is genuine.

MUSTANG LINIMENT.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment. For cuts, sprains, burns, swellings and cald breasts, the Mexican Mustang Liniment is a certain cure. For rheumatism, neuralgia, stiff joints, sprains and bites, there is nothing like the Mexican Mustang Liniment. For spavined horses, the poll evil, ringbone and swellings, the Mexican Mustang Liniment is a certain cure. For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold. Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made. It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with. In lifting the kettle from the fire, it tipped and scalded me terribly. The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar. H. S. FOSTER, 430 Broad st., Phila.

Mr. S. Litch of Hyde Park, Vt., writes: "My horse was considered worthless, crazy and lame since the use of the Mustang Liniment I have sold him for \$150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. Westhead, Chemist, and also has the private U. S. stamp of Demas Barnes & Co. over the top. Look closely. Sold by all Druggists at 25, 50 cents, and \$1.

LYON'S FLEA POWDER.

DEATH TO FLEAS!—It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of Fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any Druggist will procure the genuine if you insist you will have no other.

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing

in a highly concentrated form all the properties

of the Jamaica Ginger, has become one of the

most popular domestic remedies for all diseases

of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons

recovering from debility, whether produced

by fever or otherwise, for whilst it imparts to the

system all the glow and vigor that can be produced

by wine or brandy, it is entirely free from the re-

actionary effects that follow the use of spirits of

any kind.

It is also an excellent remedy for females who

suffer from difficult menstruation, giving almost im-

mediate relief to the spasms that so frequently ac-

company that pain.

It gives immediate relief to Nausea, caused by the

riding in a railroad car, or by sicknesses, or other

causes. It is also valuable as an external applica-

tion for Gout, Rheumatism, Neuralgia, &c.
